

Make your own Box Tops collection container

It's easy...here's what you need:

- Scissors or craft knife (make sure children are supervised when using cutting tools!)
- Glue or tape
- Paint, crayons or markers
- Two Hefty® Serve 'n Store® Plates
- A short piece of fishing line or string.

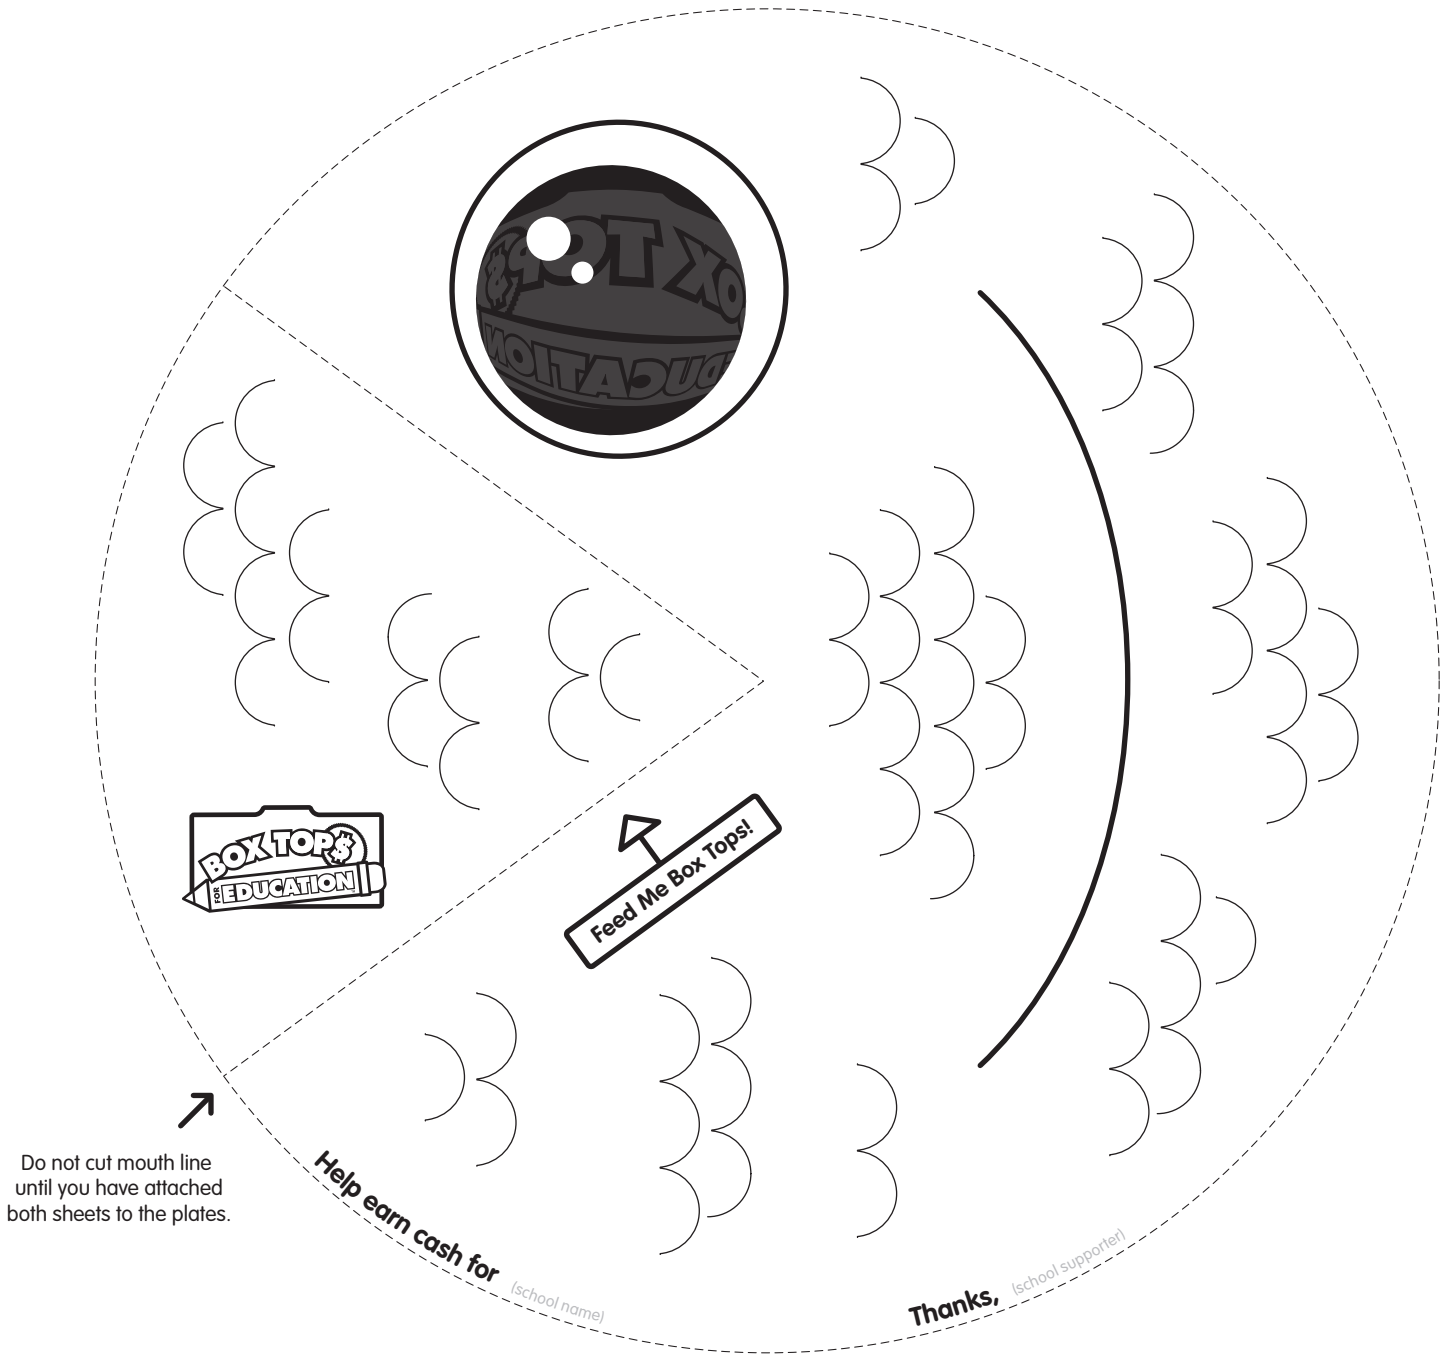

Directions:

1. Print out the collection project design.
2. Cut out the circles on the following pages.
Do not cut the mouth line until step 4.
3. Snap the two plates together and glue the circles you just cut-out to each side. Make sure the lines on each side indicating where to cut the mouth are aligned.
4. Cut along the dotted lines to form the mouth. Imagine the dotted lines extending to the edge of the plates.
5. Cut two slots on the back end of the fish to insert the wedge piece you just removed from the mouth. This will form the back fins.
6. Have your child color and decorate the fish.
7. Cut out the Box Top illustration from the first sheet. Fold, tape and color it.
8. Use your fishing line/string and tape to hang the Box Top inside the fish's mouth.
- 9a. If you want to hang the fish, open the plates and tape one end of the string inside at the top.
- 9b. To attach the fish to a cork board, open the plates and use pins to attach one side before rejoining the plates.
10. When it comes time to submit your Box Tops, just pull apart the plates!

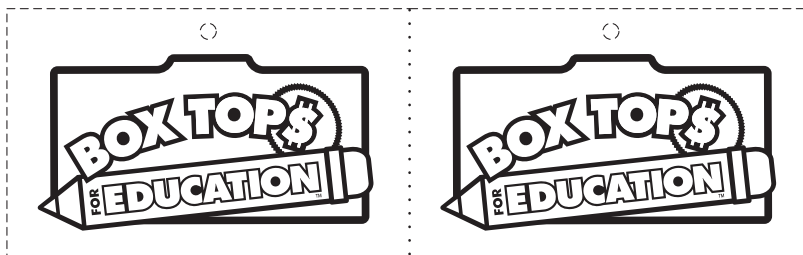

Earnings tip: Make several of these containers and give them to friends and family, or bring them to work. Don't forget to label the design with your name and school. It's a great way to remind everyone to clip Box Tops...and the more you collect, the more your school can earn!
